**& Many More!**

### Preventing & Healing Trauma in the Perinatal Period 6 Hrs.

Trauma experienced in the perinatal period is a growing concern and birth trauma can have long lasting effects. This package provides care providers with knowledge and tools to help prevent perinatal trauma and empower their clients in their healing if trauma occurs.

### Breastfeeding and Medically Complex Infants 6 Hrs.

Infants with complex medical issues can pose a unique challenge for the lactation care provider. Take an in-depth look at supporting human milk feeding in families where the infant requires extra care and expertise to establish and/or maintain breastfeeding/chestfeeding.

### Infant Sleep 2020 5 Hrs.

Getting enough sleep is one of the most common concerns for new parents, and questions about sleep are common for all health care professionals working with new families. Stay up to date with the knowledge you need to be able to provide evidence based support to the families in your care.
